PROJECTS

FruCare (FCA) — Farmer App | *Flutter · Dart · Firebase · QR Scanning* Android · iOS

- Farm management app: fields, tasks, weather, and QR scanning to see a plant's details and history.
- Works online and offline: data is saved on the device and syncs automatically when the internet returns.
- Built a sync queue with retries, conflict handling and clear online/offline status.

Tricity Infra — Field Service App | *React Native · Expo · Next.js* Android · iOS · Web

- Role-based app to manage customers, service tickets, AMC contracts and invoices.
- Tracks employee field visits, task assignment and pending/completed status; also built the website.

GymBody — Gym Management System | *Web Dashboard · Member App* getgymbody.com

- Gym software for members, plans, fee collection, attendance and staff in one dashboard.
- Fee and expiry reminders via WhatsApp and email, plus an exercise library and workout plans.

Albia Biocare — Pharmaceutical App | *React Native · JavaScript · Firebase* Android

- Medicine catalog from multiple companies, organized division-wise, with search by brand and composition.
- Two user types (authorized and guest), with special offers, new arrivals, push notifications and deep linking.

FaceMe Live — Social App | *React Native · TypeScript · Firebase* Android · iOS

- Real-time chat, video calling and an Instagram-style feed for sharing posts.

Your Child's Day — Parent App | *React Native · TypeScript · Firebase* Android · iOS

- Built for Building Futures Montessori: secure login, Observations and Learning Stories for parents.
